

SCM announces Corona Millworks as the winner of the mini teardrop trailer during its silent auction at AWFS

Silent auction to benefit U.S. Armed Forces

DULUTH, GA – SCM North America, a worldwide leading company in the woodworking technology sector, exhibited over 23,000 square feet of advanced technologies at the 2021 AWFS tradeshow July 20 – 23 in Las Vegas, NV. One of the main traffic drivers to the booth was the silent auction SCM hosted for a chance to win a nuCamp mini teardrop camper **in support of Semper Fi & America's Fund**, an organization dedicated to providing urgently needed resources and support for combat wounded, critically ill and catastrophically injured members of the U.S. Armed Forces and their families.

Winner of Teardrop Trailer Silent Auction

SCM is proud to announce Corona Millwork's Jose Corona as the new owner of this patriotic, Made in America camper. Located in Southern California's Chino, CA, Corona Millworks has been in business since 1995 and is a leading supplier of cabinet doors, drawer boxes, cabinet components, and hardware to the cabinet industry. Congratulations was given to the Corona Millwork's team as Sandy Hendren, Community Outreach and Event Manager of The Fund, presented Corona the key to the camper, while Giuseppe Riva, SCM North America CEO, joined in thanks and appreciation. As proud parents to their son Corporal Nathan Corona, who serves in the Marine Corps Reserves, Jose and Kristy Corona plan to continue philanthropic efforts supporting America's armed forces and Semper Fi & America's Fund.

"As we do each year, SCM is honored once again to partner with Semper Fi & America's Fund. Giving back is part of our core values and we believe it is our responsibility to help support the brave men and women who protect us and our loved ones," said Giuseppe Riva, CEO, SCM North America. "Through the generosity of Corona Millworks and donations from our attendees, we were able to gift Semper Fi & America's Fund additional funds and support into their community. We believe initiatives such as these unites the woodworking community through impactful ways to give back to those who have given so much for us to live in the greatest and most resilient country on earth".

Not only did participants have the chance to become the lucky new owner of a modern day camper, but also the opportunity to directly support a cause to help improve a veteran's life through individual donations in lieu of placing a bid. Each donation was matched by SCM, along with a gifted commemorative wooden American flag made on-site with our **Made in America Freedom CNC** machines.
